TRUE SEAL
YOUR PASSIVE FIRE SPECIALISTS

Passive fire protection involves many different products
and systems to protect assets and contain a fire in a building.

Specific products are designed to maintain the structural capabilities for
the safe evacuation and access of fire services to contain the fire.

These products are designed with BCA/NCC standards
and conform to specified FRL (Fire Resistance Level) to AS 1530.4

Please contact TRUE SEAL for all your passive fire enquiries

TRUE SEAL aims to provide a wide range of quality tested passive fire protection products & systems. Our range of quality cost effective products together with our ongoing service ensures peace of mind for all
passive fire aspects of the building and construction industry.

Please contact us to discuss your current or next project's specification requiring passive fire compliance.

TRUE SEAL - YOUR SPECIALIST PASSIVE FIRE CONTRACTOR
with a combined 140 years of industry and building expertise.

For all quotes and enquiries please contact us : (03) 8590 8872
